Fire at Chico. CHICO, March 22.—At about twelve o'clock last night the dwelling of Dr. W. F. Cheney took fire and burned to the ground. The building was occupied at the time, and is supposed to have been set on fire. Loss about \$1500. Insured in Fireman's Fund Company for \$1000.

Marysville City Election. MARYSVILLE, March 22.—The city election passed off quietly yesterday, both parties put forth every effort for success. The vote is very close throughout and it is impossible to tell the result. Probably however, the people's elected or dirty shirt party have elected Mr. E. Casad Marshall and the citizens or white shirts Fitzgerald for Assessor. The Court rather favors the citizen's ticket. For the balance Dr. C. E. Stone for Mayor and E. C. Ross, for Treasurer were elected having no opposition.

Suicide of a Murderer. PRESIDENT A. T. March 21st.—In July last, at Camp Apache, a soldier named Frank O'Neill, of Company Fifth Cavalry, while intoxicated, shot and killed a Sergeant of the same company, for some ill treatment received from him. O'Neill was brought here and turned over to the civil authorities, and the Grand Jury found a true bill against him for murder, and his trial was set for the coming term of the District Court here. Friday last the prisoner made his escape, but was captured on Sunday and brought back. To-day while in the jail yard with the other prisoners, he entered the keeper's room, seized a pistol and blew his brains out.

A Prize Fight in Nevada. VIRGINIA CITY, March 21st.—The long talked of prize fight for \$500 between Sullivan, champion of Australia, and Trevillian of this place came off this morning at 11 o'clock. A special train left the depot at 8 o'clock with the combatants and about 250 of the fancy ostensibly for the Mound House, but on nearing that station it was discovered that the Sheriff of Ormsby, Storey and Lyons counties were on hand to prevent the meeting and the engineer was instructed to run past, which he did, leaving the officers standing on the platform. They stopped a few miles beyond and pitched the ring near the county line. At 1 o'clock, the fight began, the men entered the ring, both apparently in fine condition. Trevillian was the heavier by about twenty pounds, but Sullivan's reputation for science and staying qualities made him the favorite. Time being called both men stepped into the scratch and the fight began, both were cautious and did some good sparring. Trevillian got in a light blow on Sullivan's nose without drawing blood. Sullivan then got in one on Trevillian's mouth and much sparring followed, when suddenly Trevillian got in a tremendous blow, knocking Sullivan completely off his feet, he fell flat on his back and when his seconds got to him he was bleeding profusely from the mouth and nose. This virtually settled the fight. Sullivan staggered to the centre. On time being called for the next five rounds only to be knocked down without making any resistance. On time being called for the 7th round Trevillian came up smiling, but it was all Sullivan could do to walk to the scratch. Trevillian struck Sullivan a heavy blow on the cheek knocking him down and ending the fight.

There is no truth in the reports that a compromise has been effected between the Scott and Huntington interest regarding the Southern Transcontinental Railroad.

Last Saturday Senator NUNAN, of San Francisco, rose to a question of privilege on an article in the Post and during his remarks stated that the man controlling the Post is Colonel JACKSON, the agent and general business manager of Senator JONES. The Post will of course deny this but the charge is true. JONES owns a controlling interest in the Post and he also controls the Express of this city, and yet both these papers moan about the "subsidized press."

The corporation organ has found a chance to question the truth of the Express' statement that Col. Crawford had telegraphed to Senator Laine that he could operate his road under the Archer bill, and make money for the owners—Express.

"Question" is rather good. But if by "Corporation organ" is meant the HERALD, we beg to disclaim all connection with the question of veracity between the Colonel and Jones' Los Angeles paper. It was the Colonel who "found a chance to question the truth of the Express' statement" and he did it so emphatically, that it read very much like "that's false!"

WHAT is known as the "PIERSON Divorce Bill" has passed the Senate by a vote of two to one. It reduces the causes of divorce to two—extreme cruelty and infidelity. It is a humane and generous measure for which wives ought to feel forever grateful to the author of the bill and to those who are assisting him to convert it into law. The husband may whip his wife in moderation, treat her reasonably rude and semi-cruel; he may let her go almost naked but not quite; he may starve her half or nearly half to death and he may subject her to a degree of cruelty equal to that to which the noble red man sometimes imposes on his squaw, but he must not proceed to extremes. That would be grounds for a divorce. Really the wives of the State ought to present PIERSON with a leather medal.

It is a mistake that the Legislature is dead to its duty and the wishes of the people. It was only sleeping. It convened in a half unconscious semi-intelligent state and shortly after re-apsed into a mental syncope, something similar perhaps, to that which prevailed in Legislative bodies some centuries before the flood. The awakening came tardy off, but it did come finally, and now at the close of the session almost, the members seem to

be reaching a realizing sense of their duty. The press gag bills would have passed early in the session, now they are hopelessly dead. If ARCHER had pushed his bill for the destruction of railroads at its introduction it would have passed both Houses and been knocked on the head by the Governor long ago. Now it could not get through the Assembly which passed it a few weeks ago by an almost unanimous vote. We have hopes of the Legislature yet. It is a very sick body, but it may live—not to do anything that it should do, but to undo some of the mischief it has done.

An Advocate of Fraud.

Although it was explicitly stated by Senator CHANDLER that in reopening the case of the Lomos de Santiago grant, great care should be taken not to disturb actual settlers who had purchased farms within the legitimate boundaries of the grant in good faith and were therefore innocent purchasers, an evening paper of this city partly owned and entirely controlled by gentlemen who claim a grant, the boundaries of which it is alleged have been extended, continues to send forth column platitudes on the injustice of disturbing innocent purchasers. Its arguments are hardly worthy the name of arguments. They are the sophistry and special pleadings of an interested party. The Express was among the first to editorially notice the movement for setting aside the patent of the Lomos de Santiago grant. It spoke in terms commendatory of the act and stated that if the Southern Pacific Railroad company succeeded in its purpose and opened the vast coal fields believed to exist within the claimed limits of the grant, a lasting benefit would be thereby conferred on this portion of the State. But suddenly that paper changed its views on the fraudulent title question and we now find it editorializing with might and main at the—on an honest journal—singular task of proving that courts nor the government have the right to correct an error of judgment; that a decision obtained on false or misconstrued evidence is irrevocable; that fraud once successful must always remain successful and that possession obtained on false evidence though confronted by mountains of truth, cannot be disturbed. It is unfortunate for the position assumed by our cotemporary, that common honesty, common sense, common law, judges, the courts and the government, all deny the logic of its argument; when a mistake cannot be corrected; when a decision is irrevocable; when it is accepted that nothing that ever was wrong and therefore everything that is right, the right of the government to set aside a land patent obtained by misrepresentation and fraud may be denied. Then, and not until then we may expect to hear no more of new hearings and reversed judgments. Then man will be a god, immaculate in character and infinite in wisdom. Then there will be no more courts, no government, no law. All will move onward in one harmonious whole and the verbosity of the Express will have given place to the music of the spheres. But until the advent of that glorious era, there will be mistakes and corrections, courts and law-suits, frauds committed and frauds punished. Truth will occasionally go to grass and error get the better of her pains. Expanded grants no matter whether called Lomos de Santiago or San Vicente will be investigated and wrongs will be righted in order that honest men may come by their dues. All these things will happen, the Express to the contrary notwithstanding.

Alden Preserved Fruits.

Yesterday Mr. GEO. B. DAVIS, proprietor of the Alden Fruit Preserving Works in this city, had on exhibition in PREUSS' drug store, next door to the HERALD office, samples of fruit and vegetables preserved by this process at the factory in Jackson, Amador county. The samples included raisins made from the white Muscat of Alexandria grape, prunes, apricots, peaches, apples, pears, corn, pumpkins, potatoes and onions. Many of these articles are two years old, and the vegetables when placed in water a few moments assume their natural size and flavor, and are as fresh as when first taken from the fields. The object of Mr. DAVIS in exhibiting these articles is to induce our people to pay more attention to the cultivation of such fruits and vegetables as are here named. No part of the State is better adapted for the growth of fruit and vegetables than Los Angeles valley.

With our rich soil and genial climate we can grow anything indigenous to the tropical and temperate zones, in such abundance as to draw forth exclamations of astonishment from the new comer. We only need to plant the seed and the harvest follows. We can produce as fine apples, peaches, pears, prunes and other temperate zone fruits, and in as great abundance as any other section of the world, and we grow more potatoes, peas, corn, pumpkins and other vegetables to the acre and with less labor than any other valley on the Pacific coast.

Mr. DAVIS has the factory ready, and if our people are wise they will turn their attention to growing such fruit and vegetables as he requires. Los Angeles ought to export annually thousands of tons of Alden preserved fruit and vegetables.

Don Mateo Keller has fifty thousand rooted grape vines of foreign varieties which will bear next year. He will sell them cheap.

San Francisco News.

SAN FRANCISCO, March 22.—Chas. Jost, of the Antioch distillery, one of the parties mentioned by Phillips as connected with the whiskey ring, denies everything Phillips says, particularly the alleged \$100,000's part to squeal. A. P. Van Dier, assistant United States District Attorney, also denies all of Phillips' charges. The District Attorney Van Dyke says that Phillips had nothing to do with the trial on the contrary and says the charges of Phillips that the jury was composed of hoodlums from the streets of San Francisco, is a slander on Judge Hoffman's court. Michael Reese was on the panel for that jury, although he was not drawn. Robert Sherwood, one of the best known citizens of San Francisco, was the foreman of the jury. Two more of Phillips' witnesses have been indicted by the United States Grand Jury. One, H. H. Thall, for attempted bribery of a witness in the Jost distillery case and A. B. Clark, government agent for oppression in office.

The agents of Wells, Fargo & Co's Express have recovered eight bars of bullion stolen from the stage between Belleville and Aurora on the 14th.

Ah Fong, a Chinaman, was shot in the leg last evening on Dupont street, by another heathen. He was conveyed to the city prison for treatment.

A revolver was found in his pocket.

An attempt was made to burn the City Hall this morning by firing a quantity of shavings dipped in kerosene in one of the water closets. The janitor discovered the flames in time to put them out.

The sloop "Go Ask Her" went ashore on North Beach last night in a Norther, and is now full of water.

Burglars are operating at the Mission, and several houses have been entered and robbed in that territory within the last few days.

In the Police Court to-day Captain Lees asked his complaint against W. B. Dewes, F. M. Ball and Geo. B. Standford, of the Oakland Tribune, for libel, be dismissed, as he understood that the libel was imposed upon the paper by some Bohemian, and as every reputation possible had been restored to him by its proprietors. The case was accordingly dismissed.

United States District Attorney Van Dyke has commenced an action against Charles H. Eberle, David Thompson, J. O. Wiley, Bernard Kelly, C. H. Boone, Frank Ashbill, S. Gibson, and Antonio Mego, defendants, for possession of Round Valley, Mendocino county, which is alleged the defendants unlawfully entered upon in March, 1873, and have since withheld from the United States.

SAN FRANCISCO, March 22.—Congress voted an appropriation of \$80,000 for the turning of San Diego river into False Bay. Since then surveys have been made by United States Engineers to ascertain the amount and nature of the work necessary to be performed which will consist of a dam thrown across the present channel at a point a little above Old town and the cutting of a canal from there to False Bay, through which the ocean shall hereafter flow. Specifications of the work have been published for some time, and bids from contractors will be called for to-day. These bids were opened in presence of interested parties by Colonel Stewart, at the headquarters of the United States Army of Engineers at 533 Kearney street, San Francisco. Ethan Gale and Edward Eccles of Los Angeles offered to do the stone work at \$2.50 per cubic yard, and excavation on canal at 75 cents per cubic yard, but they gave no guarantee. Jacob H. H. Joseph Tasker and George Geddes of San Diego, stone work \$3.95, earth works 93 cents; Albert D. Smith and Wm. C. Smith of Los Angeles, stone work \$4.48, earth work 24 cents; Frank A. and Warren C. K. Ball of San Diego, stone work \$3.95, earth work 39 cents; Edward Moore of Portland, Me., who recently removed Nonaday rock off this harbor, stone work \$3.50, earth work 35 cents; James J. Evans of San Diego, stone work \$3.95, earth work 21 cents; L. W. King of San Diego, stone work \$3.45, earth work 20 cents; Wm. Jarous of San Diego, stone work \$4.45, earth work 35 cents; George A. Johnson of San Diego and Howard Schuyler of San Francisco, stone work \$3.25, earth work 17 cents; George D. Nagle of San Francisco, stone work \$7.95, earth work 69 cents; no guarantee given, Stephen Colverwel of San Francisco, and Gilman Davis of San Diego, stone work \$3.97, earthwork 21 cents; J. A. Hutchinson of San Francisco, stone work \$5.50, earth work 26 cents; no guarantee given. J. R. Bates of Windsor Sonoma county, stone work \$4.37, earth work 24 cents. These bids will have to be sent to Washington to be passed upon before the contract will be awarded, which will probably not take place for a month or more.

Vallejo Election.

VALLEJO, March 22.—1,050 votes were cast at the municipal election yesterday. They are not through yet. It is known that the Republican candidate for School Superintendent is elected; also a Republican for School Assessor and Collector. The Citizens' candidates for Board of School Directors have a majority of 24 votes. The vote for City Trustees and City Marshal is close. The result is not yet known. The Republicans attribute the defeat of part of their ticket to apathy.

EASTERN NEWS.

Babcock Explains.

WASHINGTON, March 22.—Regarding the letter of the Attorney General to the District Attorney recently published, Gen. Babcock says he found it on his desk at the Executive Mansion without any envelope or direction to show it was intended for the President. He supposed it was for his own use and accordingly gave it to his counsel.

The Committee on Foreign Affairs hope to examine Gen. Schenck to-day as they are done with ex-Senator Stewart.

The Senate Committee on Foreign Affairs will probably be occupied for a day or two considering Dana's case, and the belief is that he will be rejected.

State Conventions.

New York, March 21.—The Pennsylvania State Convention to elect delegates to the National Convention will be held to-day by the Democrats of Pennsylvania at Lancaster and the Republicans of New York at Syracuse.

Barne, and that he had worked for Mr. Tedford who lives in the swamp. Steps should be promptly taken lest the man die of starvation or drown himself. There is danger of this last, particularly as he expressed his belief that it was necessary for him to go to a pond of water of great depth. The place where he was seen is a deserted portion of the ranch and about five miles from Santa Ana.

All parties having unsettled accounts at the Grange Store, now over due, would confer a great favor on the present management by calling and adjusting the same. A word to the wise is sufficient.

An Educator Seeking a Location.

In view of Dr. Lucky's resignation of the Superintendent of our Public Schools and the necessity for supplying his place with the best educational talent we print the following letter which we received yesterday. We are not personally acquainted with the writer, but, considering his prominent position and long experience we think it might be worth while for our Board of Education to open a correspondence with him. The letter is as follows:

J. M. BASSETT, Esq.—DEAR SIR: Desiring to learn something in regard to your city I take the liberty to send you these lines. I have been thinking of changing my location and have a tendency toward the Pacific Slope. I have been in the Illinois Wesleyan University as Professor of Mathematics 14 years, nine years of which time I have been Vice President. I wish to learn something as to the condition of educational interests in your part of the state. Are there any Seminars, Colleges, &c., and are they well patronized? Are there any vacancies in which an experienced educator might enter? What are the advantages in the Journalistic world with you? I have had some experience in the work of editor and publisher. I send you a copy of my last issue of the Alumni Journal. I should be pleased to have a copy of the Standard and you can spare the time and have the disposition to reply to the inquiries I have made, I shall feel myself under obligations to you for your kindness. Yours very truly,

H. C. DE MOTTE.

BLOOMINGTON, ILL., March 11, 1876.

Mrs. Livermore—Do we want a Lecture?

We have received the following letter which we place before the people, trusting that some public spirited person or some institution within whose field of operations the matter belongs, will take action upon it and secure a lecture or two for our citizens from this gifted lady:

EDITOR HERALD.—We wish to call your special attention to the visit of Mrs. Livermore to your State. She is our representative woman. As a platform speaker she has no equal and has attained a popularity second only to that of Mr. Gough. We feel sure that she will be eminently successful in your State, possessing as she does in a marked degree the power of gaining first the respect, and then the warm approval and admiration of her auditors. Would it not pay you to engage her for one lecture in your city? Her terms are \$100. We guarantee her absolute success. She is to lecture several times in San Francisco in May. Please reply immediately. Boston, March 7th, 1876.

Burglary.

The store of Madame Le Francois, near the Pico House, was entered by burglars last night and about sixty dollars worth of goods and money stolen. The entrance was made from Sanchez street in the rear of the establishment, the burglar knocking a panel out of the door, when the aperture would then readily admit him. The inner door which is reached at the end of a long store room was forced by making a hole large enough to admit a man's arm, and then unlocked from the inside. The holes in both doors were partially or wholly made with an anger. Doubtless there were two or more engaged in the business. It must have been done quickly and probably with little noise, as Madame Le Francois sleeps above the store and heard no disturbance. About five or six dollars in money was taken from the drawer of the counter and two or three caddies of plug tobacco, besides some fine-cut. The burglars evidently did not smoke or drink, as the wine and cigars remained untouched. This is only one of a succession of burglaries perpetrated in our city during the past month or two, and still nobody has been apprehended. We think it high time that our police force display a little of their mettle if they have any.

Santa Monica Items.

[From the Outlook of the 22d.]

A number of ladies and gentlemen sported in the surf last Sunday.

There were no less than 300 excursionists at Santa Monica last Sunday.

The range of the thermometer for the past week has been from 50 to 75 degrees.

Mr. Loren Heath commenced yesterday assessing the property of Santa Monica for the purpose of levying a tax of \$5,000 to build and furnish a school house and maintain a public school.

Those who cannot enjoy themselves at Santa Monica this Summer will certainly be hard to please. Bathing, sailing, shooting, fishing, horseback riding and driving will be items in the catalogue of pleasures.

We had a conversation the other day with a gentleman from Compton, who is anxious to have the road improved between that point and Santa Monica. He also says this is the wish of many residents of that locality.

It now seems that we are soon to have an Episcopal church in Santa Monica. Col. R. S. Baker heads the list with \$250; another gentleman promises \$100; and two or three \$50 each; several \$25; and quite a number smaller amounts. The Santa Monica Land Company will donate two lots. The building is to cost \$4,000.

Preparations are already in progress for the accommodation of visitors to the seaside this Summer. Several bath houses have been constructed on the beach; pleasure boats are already launched; a lively stable, with a number of horses and vehicles, is about to be opened; and work will at once begin on a large addition to the Santa Monica hotel.

Gleanings.

Preuss' soda fountain is running.

Mike Madigan talks of going to New Mexico.

The school teachers' Seven Palms excursion will be largely attended.

Major W. G. Tyus, of Santa Monica, is at the Grand Central.

The Wheeler expedition is near Ehrenburg.

Two Chinamen were before Trafford yesterday on a charge of robbery.

The sailing of the steamer Senator is postponed until this afternoon.

The steamer Orizaba will arrive at San Pedro this morning from San Francisco.

Gold opened in New York yesterday morning at 114 and at 11 o'clock was 114.

Joughin's ranch is the herding place for the surplus stock of the Wheeler expedition.

Messrs. Barbee & Gates sold five acres of land on Tenth street Tuesday, for \$2,510, to Hon. R. C. McCormick, of Arizona.

Mr. George B. Davis, the agent of the Alden works, is exhibiting a magnificent assortment of Alden dried fruit at Preuss' drug store.

The funeral of Miss Katie Douglas took place yesterday. After services at the Cathedral she was followed to her last resting place by a concourse of friends.

R. W. Jackson, the well known alabaster jewelry manufacturer, is exhibiting a fine stock at Bonesteel & Co.'s store. It is a fine workmanship and attracts general attention.

The Mayor yesterday had three debts who got into a snarl. Also a couple of men for indulging in a little shooting. J. Boland, one of the parties was discharged while the other is held to answer to-morrow at half past nine o'clock.

We have received information that the Masonic Grand Master of the State of California, John M. Browne, and grand lecturer J. W. Shafer will visit this city on Tuesday next. Members of the order will take due notice.

The low barometer prevailing for the past thirty-six hours indicates a great storm in the immediate vicinity of our city. Rain fell heavily yesterday in the mountains, and passed across from the Sierra Madre to the San Jacinto mountains this morning. High winds may probably attend this barometric depression.

"Swanny" has been arrested at San Francisco on a charge of forgery, but we hope will not be brought back. A collection can be raised to pay his debts rather than have the community again inflicted with his game of talk. Let him go, and save the devoted city that infliction.

New Patents.

Through Dewy & Co., Patent agents San Francisco, we receive the following advance list of United States Patents, granted to Pacific Coast inventors, viz: M. N. Cross, S. F. cleansing compound; B. A. Rawlings, and Lambert Irelan, Watsonville, Cal., blast furnace; Ellen Rohrer, Monmouth, Ozn., remedies for rheumatism of the throat and lungs; S. Gray, S. F. twin stairs, elevators, and light shafts; Rock soap company, trademark, soap.

L. Roeder, Spring street, between First and Second, manufactures all styles of wagons and carriages and does repairing in a first-class manner. Mr. Roeder uses nothing but the best of material, and he employs the best workmen to put it together, so that his work for durability and finish cannot be excelled in Southern California. Sole agent in this city for the celebrated Mitchell wagon. mar2-14
